## Fire Reports Exaggerated Our Banking System Spain May Be Scene of Revolution

### REVOLUTION IN SPAIN IS EXPECTED ANY DAY

Stated That Seventy per cent. of the People Are Opposed to the Monarchy—Spanish Monarchical Government May Find Itself With Its Back to the Wall, Fighting for Life—Numerous Arrests Are Made—Story That King Manuel Tried to Suicide—May Turn Royal Palaces Into Museums.

Paris, Oct. 12.—A revolutionary outbreak in Spain, that for magnitude and violence will dwarf the Portuguese situation, is hanging fire today, according to private advices to revolutionary leaders here, which on good authority are said to be borne out by semi-official reports to the French government.

These advices say that at any hour the Spanish monarchical government may find itself with its back to the wall, fighting for life against a movement, which today is declared to compromise more than 70 per cent. of the nation's people, with some of the foremost nobles, and publicists of the kingdom at their head.

Owing to the widespread preparations by the government and the Spanish republicans and their allied interests it is conceded that rebellion in Alfonso's nation would be attended by enormous loss of life and bitter warfare throughout the entire kingdom.

**Massing the Troops**  
Troops are being massed upon the Portuguese frontier and in all the centres of unrest today and warships are stationed at strategic points. All of the provincial governments have been instructed for emergencies and the iron hand of General Weyler is guiding the disposition of the King's military.

**Filleting the Prisons**  
Numerous arrests were made today throughout Spain. Radicals, republicans, clericals and terrorists seemed to make a common cause in the demonstration, and, rejecting over the success of the republicans in Portugal. At Barcelona the police

#### WHAT WILL BE DONE WITH THE COLONIES?

Proposal That Britain and Germany Divide Them is Not Likely of Acceptance.

A question that is assuming considerable importance in view of the establishment of the Republic of Portugal is the future of the colonies of the kingdom with their area of 802,953 square miles, and a population of nearly ten millions. It is suggested that they may be divided between Germany and Britain, in accordance with a projected secret treaty of years ago which may never have been consummated, but with the radical party in power in Britain, that is far from likely.

The colonial possessions of Portugal are as follows:

- In Africa—Cape Verde Islands, area 1,480 sq. miles, population 147,424.
- Guinea, 12,640 sq. miles, population 84,000.
- Prince's and St. Thomas' Islands, 360 sq. miles, population 42,103.
- Angola, 484,000 sq. miles, population 4,119,000.
- East Africa, 292,400 sq. miles, population 3,120,000.
- In Asia—India—Goa—1,469 sq. miles, population 475,513.
- Damao, Din, 169 sq. miles, population 36,285.
- Indian Archipelago (Timor, etc.) 7,339 sq. miles, population 300,000.
- In China—Macao, etc., 40 sq. miles, population 63,091.

In the budget for the colonies for 1908-9 the revenue is 11,320,126 milreis, and the expenditure 12,215,702 milreis, including revenue and expenditure in the kingdom relating to the colonies. A milreis is equal to \$1.08.

ture down the republican's flags from the homes of anti-monarchists and revolutionary clubs and other disaffected organizations at Valencia. The governor is reported to be filling the prisons with revolutionary leaders while every street gathering is immediately dispersed.

Troops and municipal guards patrol the streets day and night. The conviction is growing here that if revolt comes it will break first in Barcelona. Troops have been stationed in and about the city and the garrison is filled with soldiers of proved loyalty.

Emissaries of the anti-monarchists, who maintain headquarters in Paris, are in constant communication with Republican leaders in Madrid, Barcelona, Valencia, and other centres of unrest.

The financing of a general revolution with a Spanish republic for the goal has been carried on in this city, it is said. The powerful agency which financed the Portuguese revolt is declared to have advanced funds for rebellion against the Spanish throne.

It was reported here that King Manuel dictated an appeal to Great Britain on board the royal yacht Amelie, and that it has been forwarded through the regular channels of state.

The scope of the plea is not known. Hazards of the plea extend from the mere supplication of protection of the crown's property in Portugal to the bold demand that England answer its treaty compact and restore the throne to the deposed king.

**Just Two Pledged**  
Though a circular note has been sent to the powers by Provisional President Braganca, only two nations had pledged endorsement to the new republic today, and both of these were on the condition that the republic is made permanent.

These two nations are Spain and Brazil.

England is the keystone in the fabric of the whole situation. The British government must protect its subjects and its \$150,000,000 worth of interests in Portugal. The international elements of the Iberian situation today loomed up over the critical and chaotic state of affairs which existed in the newest of the republics.

**King Tried to Suicide?**  
Paris, Oct. 12.—Dehorted to one his life when he learned that his monarchy had been proclaimed a republic, but was prevented by his mother, Queen Mother Amelie, who

(Continued on Page Four.)

#### TO CONFER WITH TAFT ON CANADA.

Officials, After Talk With Knox Regarding Reciprocity, Go to Beverly for Instructions.

Beverly, Mass., Oct. 12.—Henry M. Hoyt, councillor for the state department, and Charles M. Pepper, commercial adviser, came to Beverly today from Valley Forge, Pa., where they conferred with Sec. Knox, to report to the president and receive instructions regarding Canadian reciprocity. It is understood that the negotiations which were begun last spring will be resumed some time during the present month, probably at Ottawa.

The president is highly gratified at the progress of the negotiations which were initiated when he met Mr. Fielding, the Canadian minister of finance, at Albany and Washington last March.

### MAJOR GRIESBACH MAY BE CANDIDATE

Former Mayor May Run Again This Year for Chief Magistrate's Office.

HE WAS NON-COMMITTAL

Thinks Highest Honor is Serving Citizens—Has Been Asked To Run.

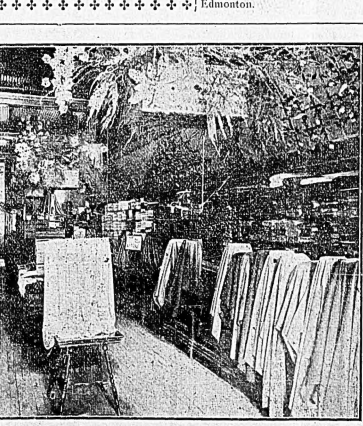

The list of possible mayoralty candidates is steadily growing. Every other day another name is mentioned. Today it is that of ex-mayor W. A. Griesbach.

The Capital interviewed Capt. Griesbach this morning and when the question was put, it was neither answered in the affirmative nor the negative, so Capt. Griesbach is a possible candidate for the chief magistracy. "I am taking just as much interest in municipal affairs as ever I did," said Capt. Griesbach, "and I still adhere to the belief that to engage in civic affairs is the highest form of public service."

Such was the diplomatic and non-committal answer that the Capital received. Capt. Griesbach admitted that he had been asked to run, but intimated that the time was hardly ripe yet for any decision.

#### OFFICIALLY ACCEPTED.

Kingston, Oct. 12.—Prof. S. M. Dyde of Queen's University has received official notification of his appointment to be the principalship of the Presbyterian Theological College of Alberta, situated at Strathcona and he has definitely decided to accept. He will remain at Queen's till the close of the first 1911 session.

Another proof that Edmonton is fast approaching the "Metropolitan" stage—A view of the dress goods department in the Purvis company's store.

According to reports, the king and Queen of Spain are in danger of losing their throne. These are recent pictures of the royal couple. King Alfonso XIII is seen walking with a member of his suite. The picture of the Queen shows her driving with Madame Fallieres, wife of the president of France.

### CONSIDER WHAT THE CITY WILL DO

Manufacturers' Committee of City Council Had Conference With Soap Manufacturer.

#### THE DECISION TOMORROW

Wants Concessions in Power, Water and Taxation—Looking for Site.

The proposition of a Canadian soap manufacturer to establish a factory here was considered by the manufacturers' committee of the city council this morning. The gentleman in question is looking for a desirable location in the west for an industry of that kind and expresses the opinion that Edmonton, on account of its geographical position, and other advantages offered, will suit his ends. He applied to the committee for reasonable concessions in regard to power, water and taxation, but no definite decision was made. The committee will the promoter their conclusions tomorrow morning. Their decision will then be referred to the council.

The promoter desires a site about 30 by 150 feet, in a satisfactory location, and will employ to start with a staff of about 18, including an experienced shapemaker, with a reputation throughout the States. As the business progresses he will extend. The industry, says the promoter, will be incorporated at about \$200,000, about \$40,000 of which he expects to raise in Edmonton.

Some person is still busy in the east end trying to buy up property and it is probable that they are the representatives of the Pittsburgh men who express the intention of establishing a huge industrial college. The other day some residents of Griesbach street were conversed by a personage who claimed to be a Pittsburgh professor and who wanted to buy up a block of property, which he said would be utilized as a site for such an institution. Yesterday operations were continued on Kinistino Avenue. A resident of that street was asked by a man yesterday to set a price on his property, the person in question stating that he desired to buy up the whole block in the interests of an industrial college.

The citizen replied that he did not wish to sell, and after a conversation the man departed remarking that the people living around there were very peculiar because when a man wanted to talk business they wouldn't even quote him a price.

### Reports of the Fires Were All Exaggerated

International Falls, Minn., Oct. 12.—Governor Eberhart, of Minnesota, and staff, arrived here this morning. Despite the early hour the governor at once left his car and looked over the situation, finding less than sixty refugees here, and ordered that they be at once sent to Duluth and Bemidji. "Everything is in good shape at International Falls," said the governor, "The people do not need soldiers, neither do they need nurses nor supplies, for their is no danger now. Those who have arrived here from the burned district and need medical attention will at once be sent to places where they can receive the best attention. The town is well patrolled and the authorities have the situation in hand. I am leaving for Beaudette to look over the situation."

Beaudette, Minn., Oct. 12.—The special train with Governor Eberhart on board pulled into here at 8 o'clock this morning. It was held up at Ranier wheel Gen. F. B. Wood bilked out the manifest for the provisions and supplies so that they could pass through Canada. All the arms of the guardsmen of Company K of the Minnesota regiment were sealed while they were crossing the Canadian border to reach the town. The railroad authorities at Fort Francis were found to have a badly congested road and it took some time to get through. The Governor's staff was unable to obtain any definite information of the number of dead, but the consensus of opinion is that it has been greatly exaggerated. After talking to a number of refugees governor Eberhart said: "I do not believe the dead will number more than one hundred. Many people reported as having been burned to an unrecognizable amount, have turned up safe and sound."

Frank M. Curtis, one of the old time forest rangers says the death list will not exceed fifty and may not go as high. He is also authority for the statement that the strip of country burned over only measures forty miles square. The McComber family of eight, whose tragic death was reported on Monday morning have been found. They escaped the flames by staying in a small creek.

### IS STILL PRICING PROPERTY FOR THE INDUSTRIAL SCHOOL

This Time Intending Purchaser Operates on Kinistino Avenue—Property Holders Not Anxious to Sell.

Some person is still busy in the east end trying to buy up property and it is probable that they are the representatives of the Pittsburgh men who express the intention of establishing a huge industrial college. The other day some residents of Griesbach street were conversed by a personage who claimed to be a Pittsburgh professor and who wanted to buy up a block of property, which he said would be utilized as a site for such an institution. Yesterday operations were continued on Kinistino Avenue. A resident of that street was asked by a man yesterday to set a price on his property, the person in question stating that he desired to buy up the whole block in the interests of an industrial college.

### EDMONTON LED THEM ALL IN BANK CLEARINGS INCREASE

Edmonton showed the largest percentage of increase of any city in Canada for bank clearings in the month of September and also leads for the first week of October. The increase for September was 45.54 per cent. Vancouver was second with a percentage of 44.20 and Victoria third with 36.14. Winnipeg had an increase of 26.50; Calgary 26.26; Toronto, 11.57; and Montreal 22.50.

For the first week of October, Edmonton's increase was 61.31 per cent.

### FINDS FAULTS IN OUR BANKS

Experts of the National Monetary Commission of United States Makes Report.

#### CLIENTS NOT FAIRLY USED

In a Country Like Canada at Least Four Per Cent. Interest Should be Paid.

#### EAST HAS BEEN INJURED

By the Branch Bank System—Charged That There is a Monopoly of Money Power.

Criticism of Canadian Banks. Should pay at least 4 per cent. on deposits.

Competition in essential matters lacking.

Branch bank system has starved the east industrially.

Banking capital too small.

Bankers are too secretive.

Bank clerks have insufficient educational advantages.

Canada's banking system as a whole warmly approved, the foregoing criticisms occurring merely incidentally.

Washington, D. C., Oct. 12.—What is probably the most exhaustive and impartial report on Canada's banking system that has been made is that published a few days ago by the National Monetary commission of the United States, from the pen of its special commissioner, Prof. J. F. Johnson, dean of the New York University School of Commerce, Accounts and Finance. The report embraces 200 pages and several charts, and is one of a series prepared for the commission on the various banking systems of the world. Prof. Johnson in a prefatory note, acknowledges the assistance of a number of Canadians and of the Monetary Times of Toronto.

The report, which is an unusually readable document for a treatise on monetary matters, is of particular interest on account of the imminent revision of the Canadian banking act. Prof. Johnson found that the people of Canada speak of this banking system with a good deal of pride. Many of them, he says, know that it has been called one of the best in the world and are not slow to mention this fact when critics appear from abroad. Neither is Prof. Johnson sparing in his good words for many features of the system, but neither does he hesitate to point out what he thinks are inequalities.

**Interest on Deposits Too Low.**  
For instance, he touches a vital point when he discusses the rate of interest paid on earnings deposits. He says in this connection:

"Canadian bankers feel that 3 per cent. is too high a rate of interest to pay depositors. This rate is a matter of tacit agreement among the banks, and no single bank can afford to lower it for such action would cause it a loss of business. On the other hand if any bank hoping to increase its deposits should offer to pay 3 1/2 per cent., its conduct would be looked upon with grave disapproval by its competitors. Some of the new banks in recent years have obtained business in this manner and have been severely criticised by the managers of the older institutions. To an outsider it would seem that the savings bank depositor in Canada is not generously treated. In the States he gets 4 per cent. on his savings even in the large cities.

In Canada, a country where real estate mortgages yield from 7 to 9 per cent. and the bonds of new corporations are selling at prices giving the investor a higher return than he can get in the United States, it is certain that a real savings bank could well afford to pay depositors 4 per cent. It is doubtless true that 3 per cent. is a higher rate of interest than most of the savings depositors in the chartered banks have a right to expect. A large part of these deposits are not savings deposits at all. Never-

## News and Views of Sports at Home and Abroad

Rowing  
Lacrosse  
Athletics  
The Ring  
WrestlingBETTING IS VERY QUIET  
ON WORLDS SERIES GAMES

Few Large Wagers Have Been Made to Date---Ever's Injury is a Damper

Chicago, Ill., Oct. 12.—If there are any Philadelphia Athletics fans in this city who believe that team will win the world's championship there is plenty of money in small lots that can be covered at the various betting places about town. Odds? Nothing doing.

There was a time—only a few days ago—when bets were made at 10 to 1 on 10 to 8 on the Cubs, but the injury to Johnny Evers took a kink out of the west side fans, and they now are demanding even money.

Little of the coin of the realm, however, has passed over the counters, the betters waiting for the final days before the series to place their money.

Cub fans bemoan the fate that put the Trojan out of business. While they are all true and staunch friends of Heinie Zimmerman, they figure that the brainy ball playing of the little second baseman on the defensive would more than offset the heavy sick work of the substitute on the defensive, and are laying off until the dope is clearer than at present.

Many "Piker" Bets Made.

"Piker" bets have been laid at various prices, the averages being 10 to 1 on 7 on the Cubs, and the fellows on the long end now demand even money. Most of the wagers were placed before the injury to Evers and the layers counted that with him out of the game there isn't anything to it but even money.

The only real big coin in sight is held by Al Terney at his place in Adams street. The Three Eves president has in hand \$10,000 to \$20,000 even money on the Cubs. He declined to say who owned the money, but that it was there if any of the Philadelphia followers wanted a piece of it. He said he would like to place it in a lump sum as such a thing were possible, but that little bets would be acceptable.

One bet of \$100 even was recorded during the day.

At the Morrison hotel gossip had it that there was plenty of money around at 10 to 7 on the Cubs. In fact, it was declared that one bet of \$1,000 to \$700 had been placed and that there were bunches of coin to be had at the odds, but when an Athletic fan blew in with the whereabout there wasn't a penny in sight.

Many Want Even Money.

Enthusiasm over the series at Von Gelsom's in Madison street received

quietness when it became known that Evers would be out of the games, and the men who had felt so sanguine of the Cubs' success as to place money at 10 to 6, now want even money, believing that the absence of the second baseman will be a great handicap to Chance's well oiled machine.

The only sporting quarters in town where there appeared to be any backing of the Athletics was at Burns' place in the Fisher building. When told of the 10 to 7 price at the Morrison some of the American league fans declared they were going to get busy on the short end of the offer.

The sportsmen there were about evenly divided and much bantering and conversation took the place of actual betting. The opinion of the followers of Ban Johnson's league was in a way summed up by a letter from a Pacific Coast fan who declared his willingness to bet and give odds that the Athletics would win, that they would steal more bases than the Cubs, and that they would field better. It wasn't long before a telegram was hurried to this optimist, accepting the bet. One man covered the whole deal and about \$3,000 lower at the end of the series.

Odds of 5 to 1 on the Cubs.

The liveliest betting of the day was found at Riley & Rohan's, in Dearborn street, where odds of 7 to 5 on the Cubs found many takers. No large wagers were recorded, but the amount of money at stake was declared to be well up in the hundreds.

At the Tavern in Washington street, Dan Wall's in Dearborn street, "Fence" in North Clark street, O'Leary's in Halsted street, and Rogers' in West Madison street little betting has been recorded and that only at even money.

The consensus of opinion is that there will be little wagering until two or three days before the series opens. The local fans are of the opinion that the Cubs can't lose, but the lack of Philadelphia money keeps them from registering their opinion in real money.

Those persons interested from a commission standpoint do not look much betting until the eve of the opening ball. Matters will have adjusted themselves by that time, the fans will have the "dope" correct, so far as it is possible to give it to them, and will be ready and willing to take a chance on their choice.

## AMERICAN LEAGUE STANDING

Sunday's American League games completed the schedule of the 1910 season for that organization. The Philadelphia Athletics were easy winners, and besides they put up a new record for the American League of having won ten games won. The nearest to this was Detroit two years ago with 98 games won. New York finished second and Detroit third. The final standing is as follows:

Philadelphia	102	48
New York	92	58
Detroit	86	69
Boston	84	73
Cleveland	71	86
Chicago	69	85
Washington	66	86
St. Louis	47	107

## PIRATES DROP CAMMITZ

Quarrel Between Pitcher and Owner Dreyfus Likely to Cost Howard His Job

Pittsburg, Pa., Oct. 12.—Howard Cammitz may not be a member of the Pittsburgh club next year. Dreyfus said today: "We have had too much with Cammy. He's a good pitcher, but indisputable. We have tried our best to hold him in, but have failed." Cammitz left a letter for Houstonsville, Ky., accompanied by his father. The trouble between Cammitz and the club is of long standing. He was let go \$20,000 for the year, and \$12,000 if he abstained from baseball during the winter season. He never gave up. Dreyfus had to be the victor in the end.

It is reported that the ill treatment accorded by the president to the players resulted in bitter internal dissension among the members of the team.

ALL-STARS WON  
FROM ATHLETICS

Bender, Plank and Coombs were all Hit Freely—Walter Johnson Starred

Philadelphia, Oct. 12.—The Athletics did not do much yesterday to entitle their supporters to offer odds on them in the betting on the world's series. The all-star aggregation gathered in from various American league teams, with Johnson, the star Washington pitcher in the box, defeated Philadelphia in the first of five exhibition games by the score of eight to three.

Bender, Plank and Coombs, the pitchers who made up the Athletics' bank on more than any other factor to win him the world's honors, pitched three innings each and were hit freely, while on the other hand the Philadelphia team could do nothing with Johnson, getting but one off him.

Interviewed after the game Manager Chance of the Chicago Cubs was in fine humor, and on hearing of the downfall of Philadelphia's crack boxer, he was more confident than ever that the premier baseball honors would again be won by the Wimpy City nine. He said:

"I am confident that we will win the series. Brown is in better shape than he has been this season, and will give a good account of himself. So will Ed Reulbach. Overall is uncertain. After other days it bothers him a good deal. If he's right there will be something to it. If he is good and ready I shall use him in the first game of the series, and probably follow with Brown in the second, leaving Reulbach to pitch the first game in Chicago. I am going to send both Brown and Overall to the batting cage before the series to give them a good workout, but shall not work either of them more than once. I think my leg is going to stand up all right. It is better than it was, and I hope that it will not go back on me. In case I cannot play in the series I shall feel perfectly confident of Jimmy Archer being able to hold down the bag all right."

## JOBS FOR PUGVISTS.

(Ottawa Free Press.)

Since "Jobs" and positions go hand in hand with Canadian Rugby, we may expect to see the following in the daily papers shortly:

Hamilton, Oct. 7. (Extra Special).—The announcement that Jack Williams will play center half and Dr. Crispin quarter with Tigers tomorrow has sent Hamilton clean crazy with excitement. Billy Harper has a million to place on the home team at 10 to 7. Doc has been given a practice and Jack gets the Spectator building.

Toronto, Oct. 7. (By Wingsless).—Bert Stronach arrived here from British Columbia this morning and will play outside wing for the sculkers tomorrow. A oh as motorcar on the street railway has been secured him at \$3,500 a year.

Montreal, Oct. 7. (Loashed Wire).—Chaucer Elliott gave out the starting information today that Jack Ryan would play for Montreal against Argos. Ryan has been made head field walker in a St. Catharines street department store at an annual stipend of \$2,800.

Kingston, Oct. 7.—Via Rideau Canal.—George Kennedy will play center scrimmage for Queen's this season. He has been appointed professor in criminology at a salary of \$2,800.

## LAJOIE WINS AUTO.

Chicago, Oct. 9.—The race between Lanie and Cobb has been settled in favor of the big Cleveland player. According to unofficial figures the Cleveland slugger by his head hitting caddy at St. Louis when he made eight hits out of the same number of times at bat, put him ahead of his Tiger rival three points. The record complete between the two follows:

C. A. B. H. A. V.	
Lajoie	139 292 228 385
Cobb	140 308 104 382

Sporting writers of St. Louis declare that Lajoie got but one clean hit in Sunday's games, but fielders laying down on the other drive off the Frenchman's bat.

## GRANITE CLUB MEETING.

The annual meeting of the Granite Club will be held in the rink at this evening at 8 o'clock. A full turnout of the members is requested.

ESKIMOS EXCEL  
IN TEAM WORK

Edmonton Baseball Club Led the League in Batting and Fielding

An Edmonton baseball baseball fan has figured out the team figures of the Eskimos and Huskies from the official averages.

His statistics reveal the fact that the Edmonton team has the remarkable team batting figures of .280. Edmonton in any league does a club out as well as that. Calgary team figures are .268, also very good.

Notice the totals for stolen bases. The Edmonton team has 321 to its credit, having over twice as many as credited to Calgary. The Edmonton players were almost all speedy on the paths, while some of the Calgary players had ludicrous records. Standeridge was in 68 games and stole one base. Gehan participated in about 30 battles and stole nearly a base. Why old Slim Dell, probably the slowest runner in captivity, stole two sacks.

The Edmonton individual record for stolen bases is as follows: Morse 25; Mills 53; Lussit, 41; Brennan 42; Walters 27; Seppner, 26; Baxter 28; White 5; Dell 2; Dellar 2; Cox 19; Hickie 0.

## TOM BATE FOUND DEAD

One Time English Lightweight, Dies as Result of Asphyxiation in Boarding House.

Paterson, N. J., Oct. 12.—Tom Bate, one time lightweight champion of England, was found dead from gas asphyxiation in a boarding house early today. It is thought that he accidentally turned on the gas. After a few years of fighting Bate became lightweight champion of England and successfully defeated the title four years. In 1866 he fought Pete Hanigan for the title. In the twenty-second round the police interfered and the fight was declared a draw. This so displeased Bate that he came afterward to England and came to this country.

## FLETCHER IS SUE

Cincinnati Printers File Complaint of \$12 Against Head of Proposed Third League

Cincinnati, O., Oct. 12.—D. A. Fletcher, who is said to be at the head of a movement to organize a new baseball league in opposition to the National and American leagues, was sued today in a magistrate's court for \$12. The suit was brought by Warner Bros., printers, who declared Fletcher owed the firm that amount for goods sold to him a year ago. Simon Roth, Jr., who filed the suit, for the firm, declared that Fletcher had stated that he did not have enough money to meet the bill.

## SOME HALF BACK.

Montreal wants another fast half back. Chaucer Elliott should get in touch with King Island of Portugal, who made the quickest getaway on record.

ALWAYS WEARS  
A HEAD GUARD

Murray Kennedy of Rough Riders won't Play without this Piece of Harness

Ottawa Citizen: Murray Kennedy is the only member of the Ottawa football squad who wears a helmet. Rain or shine, win or lose, Kennedy always buckles on his head gear before starting play.

"Why?"

"Well, it's this way," Murray recently explained to a Citizen reporter. "Several years ago I was playing football at Kingston. An opponent hoisted the ball in the air and I ran for it. So did another member of my own side. Crash! I woke up in the dressing-room."

"What happened to the other fellow?" inquired Jack Ryan, who would be robbed of the most picturesque part of his make-up were he to lose his sky-piece.

"Well, he never accused me of having a soft head," replied the Ottawa center-half. "The doctors worked over him for several hours."

It's fortunate, perhaps, for the Ottawa club and for Kennedy himself, that he wears the helmet, for he hits the line like a cannon-ball. But Ken is another interprovincial player who always sports a leather cap. "Pud has been wearing it so long, in fact, if Jim McQuinn's guess isn't astray, that the leather goods is in need of fumigation, which causes Eddie Phillips to wonder how many spectators Ben Simpson could scare into fits were he to trot millinery."

Out with a nose guard and football

## PITCHER AMOS RUSIE

Famous New York Pitcher now Employed in Factory—Not Afraid of Hard Work

Olney, Ill., Oct. 12.—Amos Rusie, one of the most interesting figures of the baseball world for sixteen years, is a bottle layer at the Olney Bottle company plant. Amos went to work there last night at 5 o'clock, and his shift ended at 3 o'clock yesterday morning.

When he reported for duty he told them not to be afraid to keep him busy as he liked to work hard. Although he has made baseball history, Rusie is still a young man.

## MURPHY REGISTERS KICK.

President Charles Webb Murphy, of the Cubs, says that he was cheated out of the toss for first game in the world's series.

He adds: "It all happened in the room where the members of the commission gathered for their meeting. It was agreed fully before the toss was made that if the coin fell off the table the toss was to be unfair and another should be made. I produced a favorite half-dollar and tossed it in the air, and President Shibe of the Philadelphia team, cried 'Heads' while it was in the air."

"The coin fell to the table and rolled off onto the floor. President Johnson followed the coin half way across the room and bent over it as it settled on the floor. He then announced: 'It's heads; Uncle Ben, you win.'"

"What happened to the other fellow?" inquired Jack Ryan, who would be robbed of the most picturesque part of his make-up were he to lose his sky-piece.

"Well, he never accused me of having a soft head," replied the Ottawa center-half. "The doctors worked over him for several hours."

It's fortunate, perhaps, for the Ottawa club and for Kennedy himself, that he wears the helmet, for he hits the line like a cannon-ball. But Ken is another interprovincial player who always sports a leather cap. "Pud has been wearing it so long, in fact, if Jim McQuinn's guess isn't astray, that the leather goods is in need of fumigation, which causes Eddie Phillips to wonder how many spectators Ben Simpson could scare into fits were he to trot millinery."

Out with a nose guard and football

## AT THE THEATRES

## THE MANXMAN

The Manxman, latest of the dramatizations of that powerful writer, Hall Caine, will be seen in this city on Thursday, October 13, at the Empire Theatre with a cast of great brilliancy headed by that popular star, Mr. Frederick Clarke.

The play is acknowledged the best of all the Hall Caine plays, and that is saying much for the enjoyment of local play-lovers, for we all remember The Christian, the Prodigal Son and The Eternal City. The Manxman is a page from real life and has to do with a great and inspiring love, punctuated by great dramatic moments and brilliant dialogue. Action, with simplicity keys the heart of the auditor and beholder to the beauty of the work and the east which will interpret it will be far above the usual dramatic organization.

Plans, specifications and schedule of estimated quantities can be obtained from the City Engineer's Office. Each tender must be marked on outside of envelope "Tender for Bridge Piers."

THE CITY COMMISSIONERS.  
012-14-17.

### REVOLUTION IN SPAIN (Continued from page one.)

threw her arms about his neck and cried "You are the only one I have left now, don't put me to further pain."

This report came from Lisbon today. It added that King Manuel was so unnerved by emotion and the exciting battle scenes he had been through that he had to be helped aboard the royal yacht, Anacle who fled with his mother and the rest of the royal family.

The news that Manuel was so physically exhausted that he could not walk gave rise to the rumor which was forwarded here from Gibraltar early today, that the King had been wounded during the bombardment of the palace.

#### Exodus of Clericals

The exodus of clericals began from the Portuguese capital today. At the expiration of the twenty-four hours which had been granted members of the Catholic order to leave the country. Romanists of every order began flocking towards the frontier. Two Catholic monasteries were stormed by the Republicans, one at Campolito and another at Graca. A number of priests were killed in the fighting. It is said that the republic will confiscate all the church property in Portugal and the Vatican has taken steps to try to prevent this through the offices of the friendly Powers.

#### Make Museums of Palaces

Lisbon, Oct. 12.—The Minister of the Interior, Antonio Almeida, questioned regarding the disposal of the king's property, said that nothing had yet been decided upon officially. All the palaces were closed and carefully guarded. They probably will be converted into museums or schools to be used for other public purposes, he said.

A minor cabinet crisis has already been overcome. Telles, who is credited with being a disturbing element in the ministry, has relinquished the portfolio of finance, and Jose Releves, who is credited with being an able diplomat with an intimate knowledge of foreign affairs, is likely to replace Machado, as foreign minister. Machado was anxious to remain in the foreign office, but has bowed gracefully to the exigencies of party politics.

### OH JOY! LOOK QUICK THE SIGHT OF A PICK

At Work on Namayo Avenue  
Ditch—Excitement, Though  
Great, Is Very Sedate.

#### IT FILLS ALL THE HEARTS

Of the Poor and the Rich—Work  
Started Today, and All Cry  
Hoo-ray!

Hurrah! They're off.

No, it is not a horse race, so keep your hand out of your money pocket. Work on the Namayo avenue ditch started today amid suppressed excitement and one of the greatest political issues which has confronted the citizens of Edmonton is over.

Forty had the stroke of work been done when the glad tidings spread from one end of the avenue to the other, in a telegraphic wave of joy.

Rat Creek was the scene of the opening operations, and when a few sturdy men put in an appearance and prepared to tackle the job, all the top windows in the vicinity were thrown wide open and inquisitive heads peered out; little boys playing on the street darted in the back way to tell their mamma; the corner grocer who was weighing a pound of cheese for a customer faltered in the operation and fell back again; and the fat man putting up double windows saw the scene reflected in the glass and let a window fall on his toes. Oh, such a din.

Yes, the work has commenced and Namayo avenue from Rat Creek northward will be a scene of activity for a couple of months. The concrete pipe will first be installed and after it has hardened the filling-in process will be started.

#### CELEBRATE COLUMBUS DAY

New York, Oct. 12.—The 418th anniversary of the discovery of America by Christopher Columbus is being observed in twelve states today. They are California, Colorado, Connecticut, Massachusetts, Illinois, Maryland, Michigan, Missouri, Montana, New Jersey, Pennsylvania, and New York.

#### ROBT IRONSIDES DEAD

Montreal, Oct. 12.—Robt. Ironsides, millionaire member of the cattle exporting firm of Gordon, Ironsides, & Company, died this morning. He had been suffering from enlargement of the heart for some time.

### CALL MEN TO FLAG TO BREAK STRIKE

French Railroad Takes Novel Method of Getting Employees Back to Work.

Paris, Oct. 12.—The government has decided upon an important step in an attempt to break the strike on the Northern Railway. The official journal publishes a decree calling about 30,000 employees of the Northern railway to the colors. This immediately subjects the men to military discipline.

The officials of the Northern Railway have issued a statement that the wages of the employees were increased 3,500,000 francs during the year 1909-10 and that the increased burdens imposed by parliament made it impossible to meet the demands of the men.

#### Others Go on Strike

Paris, Oct. 12.—Employees of the eastern railroad today voted to strike at noon and the trainmen on the Paris, Lyons & Mediterranean lines decided to go out this evening.

### DANCES WHILE MANUEL FLIES

Girl Who Is Blamed for Overthrow of Portuguese Monarchy Is in Vienna.

#### WAS LOVE AT FIRST SIGHT

Gets \$25,000 for Three Months' Engagement, and is Proud of It.

Vienna, Oct. 6.—Portugal's "uncrowned queen," Milly, Goby Deslys, whose twinkling toes brought Manuel to his knees, and is said by some to have cost the boy ruler his fortune and his throne, today gloried in her friendship for the youthful ex-monarch.

Milly Deslys, who set Paris by the ears, and created a furore in London, is appearing at the Apollo Theatre here, dancing light-heartedly before vast audiences, while each hour brings fresh tidings of the complete ruin of her lover.

Last night's great throngs packed the Music Hall to see the chic little French woman. At her throat sparkled a magnificent sunburst of diamonds, wrung from bankrupt Portugal by Manuel that he might buy his way into her favor.

"I first met the king fifteen months ago in Paris," she said, where I was dancing. He was brought behind the scenes and introduced to me after the performance. It was love at first sight.

"After that first meeting, we met frequently. He came repeated to Paris to visit me. We were always happy together in those days.

"In February of this year, His Highness summoned me to Lisbon, and at his request, I danced at the great charity fair the king organized for the relief of the victims of the Oporto fire.

"I did not live in a suite in the royal palace, as was declared yesterday. I stayed in a suite in a hotel near the palace, but the king paid me marked attentions and was in my company during nearly all the time I was in his capital. He even presented me to his royal mother.

"My contract for my next engagement is here. See for yourself that I am to get \$25,000 for appearing three months here. I believe that my income is greater than that of the king.

"I last saw the king in August in Paris. I had a long letter from him, just a few days ago, wherein he wrote of his great joy over the prospect of seeing me again in Paris at the end of October. The king was a nice young man, proud as the proudest, and with a kind heart.

#### Won't Leave the Stage.

"When it was reported that he meant to marry me, one Paris paper highly said: 'Deslys will not abandon the great kingdom of the stage for the small kingdom of Portugal.'

"Milly Deslys was greatly agitated when told of the changes which surrounded the king during the bombardment of the royal palace at Lisbon. When later notified that the king had escaped and was safe, she said:

"It is much better for the young man to abdicate. I know he will be happier now than he was among all his troubles as king."

#### LORD STRATHCONA SPOKESMAN

London, Oct. 12.—Lord Strathcona, representing McGill, will be spokesman of all the British Universities at the centenary of Berlin University, the 11th of November.

### EDMONTON'S SIZE DEPENDS ON NORTH

When North Country Is Settled Up, Edmonton Will Develop at Wonderful Rate.

#### SO SAYS HON. GROSVENOR

Transportation Facilities Must be Improved—Settlers Now Want More Than Quarter Sections.

Hon. F. E. Grosvenor, of London, England, who returned yesterday from the Peace River country, says that the settlers up north are agitating for a doubling of the size of homesteads, arguing that 160 acres is not enough.

"I heard the opinion expressed by settlers wherever I went," said Mr. Grosvenor, "but to understand the force of their arguments it is necessary to travel through the country. He pointed out that many of the settlers contended that although the country was choked with possibilities, yet it was not worth while for them to undergo the expense of transporting stock and effects into the north country for the consideration of 160 acres only.

Mr. Grosvenor expressed the conviction that the government will eventually change the regulations and permit of more than a quarter section being taken up by homesteaders.

There have been many colonization schemes launched during this summer, and Hon. Mr. Grosvenor is another who has one in hand. He declined to discuss his plans though.

"For a time the north country will be a stockraising country," said Mr. Grosvenor, "but there is no question in my mind that wheat will be grown there. There is a liability to frost, but the impression is that the danger will be lessened as the country is settled up. The northern country has a great future both as a mixed farming and stock raising country. When the country is settled Edmonton will grow at a rate that will surprise even the most optimistic."

The transportation conveniences to the north came in for considerable criticism at the hands of Mr. Grosvenor.

"The north road from Athabasca, according to Slave Lake is a disgrace to the country," he said, "Although one

does not expect to travel in luxury or comfort through an undeveloped country, yet at the same time this road is so disgraceful that incoming settlers should not be kept in ignorance or its condition.

Hon. Mr. Grosvenor has spent ten years in Canada, having resided at Nelson, B.C. He has therefore had an opportunity to study conditions under the most favorable circumstances. He is working at present in the interests of a group of English capitalists, and will after a trip to the coast, where he goes from here, will return to England and make his report.

#### WILL COPYRIGHT CITY'S NAME

Wilkesbarre, Pa., Decides to Apply for Patent Granting it Exclusive Use of the Word.

Wilkesbarre, Pa., Oct. 12.—Wilkesbarre is going to try to copyright its name so that it cannot be used by another place in the United States. The city council adopted a resolution providing that application for a copyright be made on the ground that the exclusive possession of the name forms a distinct commercial advantage, in that mail freight, and express direct bills will not be sent to any other Wilkesbarre.

### A PERMANENT M.H.O. FOR SCHOOL BOARD

The school board has not made public as yet the report of the investigation on the health of the schools which was submitted to it. A special committee of the school board but it is understood that it was on hearing this report that the committee decided to resolve themselves into a meeting of the school board to consider the report and take action towards the appointment of a medical inspector for the schools. Dr. Biggar's report is merely preliminary and it is felt that a regular official is needed to have an eye to the health of the schools. Whether applications have been received in answer to the advertisement has not been divulged; the salary is \$1,200 and the official will of course have the privilege of practising in addition. Several names have been mentioned in this connection but nothing definite will be known until the next meeting of the board.

## 14 LABORERS ARE SENT TO THE FORT

Found Guilty on Charge of Breaking Contracts With Foley Welsh and Stewart.

TOLD TALE OF HARDSHIP

Said They Had Been Kept in Car for Twenty-five Hours Without Food.

In spite of the decision given by Inspector Worley in favor of the laborers in the case of Foley Welsh and Stewart, versus ten laborers who broke their contract by not going to work at Edson, fourteen more men were brought before Inspector Worley, R.N.W.M.P., at Wolf Creek, on charges of breaking contract and were fined 10 or fourteen days. As far as the men are concerned it does not seem therefore that there has been any change in the conditions of living. The Corporal Bailiff of the R.N.W.M.P., stationed at Edson, said that the men were well treated, but they were simply starved at the exasperated reports of level in the construction camps, which are current in Edson. In his opinion the camps are as good as could be expected.

Of the 139 men that shipped from Winnipeg only 67 remained on board at Edson, the remainder having managed to escape. On arrival at Edson they were ordered to walk from 40 to 60 miles west to go to work, and about seventy men refused to do so and about twenty were arrested on information laid by Geo. Latier, clerk to Foley Welsh and Stewart. The remainder of the men have not been located but are presumably on their way back to Edson.

When placed on trial a number of men admitted they refused to go to work on account of the conditions of going to work, but did not admit that they had broken the contract. They all pleaded guilty.

At Calder on Friday of last week an Edmonton business man was seen in a train when four young Scotchmen climbed into the carriage and asked him for food. They said that they had been locked in the cars for twenty-five hours and had not had a morsel of food. At Winnipeg they said the company had agreed to supply them with food but had not done so. The business man was able to help the young men a little.

Alex Gordon one of those young men, asked permission on his way to Fort Saskatchewan to serve his fourteen days, to communicate with J. D. Hyndman with a view to getting him to take up the case and appeal it. Mr. Hyndman will go to the Fort today.

### ANNOUNCEMENT

Many in this city have never seen a motion picture, and to all such we extend a special invitation to come and see the very greatest the world has ever produced, entitled "The House With Closed Shutters," to be presented at Starland, on Monday and Tuesday next. In an extremely graphic and realistic manner, it reproduces actual incidents from the American Civil War, but its greatest value lies in the fact that it represents the most powerful moral lesson and contrast between courage and cowardice ever put before the public through any channel whatever. No more suitable place for the first exhibition in Edmonton could have been chosen than Starland, with its high class music and the latest improved motion picture machines; where you will be able to see this masterpiece of art, science and human ingenuity under the most favorable conditions.

**VETERANS' ASSOCIATION.**  
A supper will be given by the Veterans' Brigade on Saturday, October 15, at 8:30 at Palmer's cafe, First street, in honor of Mr. J. H. Hildyard, Luck, K. G. of Winnipeg, who is visiting in the city.

Mr. Luck has done much towards bringing the Veterans together and in organizing this association which has now spread from coast to coast with over 4,000 members, and is the man who drafted up the constitution.

He will deliver an address after the supper explaining in full the object of the organization, the constitution, what is expected of every member and will endeavor to show to every present the reason why every veteran should become a member. Every veteran in the city is requested to be present whether a member or not. Supper will be given at the regular prices and a good time is expected.

**CAPT. GEO. BOWLES**  
Commanding Co. 20 Veteran's Brigade.

The classes at the first armories will hereafter be held on Fridays instead of Thursdays.

## Y.M.C.A. Development

The last five years have witnessed a remarkable development of the Young Men's Christian association in Canada, over a million and a quarter having been subscribed for new buildings as follows: Halifax, \$100,000; Sherbrooke, \$30,000; Montreal, \$30,000; McGill University Student association, \$15,000; Ottawa, \$20,000; Oshawa, \$22,000; Hamilton, \$25,000; Woodstock, \$25,000; Owen Sound, \$20,000; Collingwood, \$7,000; Orillia, \$25,000; Kenora, \$8,500; Regina, \$40,000; Calgary, \$85,000; Lethbridge, \$35,000; Edmonton, \$35,000; Revelstoke, \$10,000; Victoria, \$10,000.

The foregoing campaign in Edmonton for \$36,000 for the purpose of freeing the Edmonton institution from debt and for extensions to the plunge and shower baths, will make the total amount raised in Edmonton in five years just \$4,500 more than was raised in Calgary at one time.

## GIVE UP ALL HOPE OF FINDING LIFE

Men Buried in Colorado Mine Explosion Are All Believed To Be Dead.

Starville, Colo., Oct. 12.—Reporting damage to the remote workings of the Colorado Fuel & Iron Company's mine here, far wider in extent than was anticipated. Immediately after Saturday night's explosion, a shift of rescuers emerged from the mine. Their report brought disappointment for the company's officials and watchers. Eleven bodies were recovered during the day. It is admitted that all hope has been abandoned of finding life in the underground labyrinth.

**HUSBAND SHUNNED BATH.**  
Kokomo Woman Is Given Divorce Because of Helmelet's Aversion to Soap and Water.

Kokomo, Ind., Oct. 12.—Alleging her husband neglected to bathe and she had to borrow flour of the neighbors because he preferred hunting rabbits to supporting his family, Mrs. Salome Wagoner, land owner, was granted a divorce today. The defendant made no defense, but refused to allow a divorce by default, saying he did not believe in divorces.

**HEAL SICK BY PRAYER.**

Protestant Episcopal Convention Decides by Five Votes not to Sanction It.

Cincinnati, Ohio, Oct. 12.—A resolution giving the sanction of the church to the healing of sick by prayer was adopted in one section of the house of deputies of the Protestant Episcopal convention in session here, but was defeated by the laymen's section by five votes, voting being by dioceses. The committee on marriage and divorce made a report today that it would be unable to make any change in the laws of church in this regard at present.

**VIOLET RAYS AS FILTER?**

Cleveland Thinking of Purifying Its Water Supply in an Unusual Manner.

Cleveland, O., Oct. 12.—Ultra violet rays may be used by the city for killing the germs that enter the city water mains at the Kirtland pumping station. The study of such a plan as a possible substitute for a costly filtration system has been suggested to Chief Engineer Scholz by Supt. Smith of the waterworks department.

The rays would enter the main through an eye covered with quartz and every germ in the water permeated by the rays would be killed, it is asserted.

**THEIR NEW HATS.**

The Veterans' Association have decided that the only distinction that they will wear will be in the shape of the hats which have arrived and are being given to the veterans, is a mouse-colored fedora with a crimson band around it and a mouse-colored cord and tassel.

Next Saturday the association will hold a meeting at which Mr. Leach, a lawyer from Winnipeg, will speak concerning the organization of the association. The final details have not yet been arranged.

## FINDS FAULT.

(Continued from page 1)  
themselves, it is doubtful if the banks would be justified in a reduction of the rate.

"The right solution of the problem seems to lie in another direction, namely, in the making of a sharper distinction between demand and savings deposits.

If the depositors were not allowed to check upon their accounts they would be a source of such little expense to a bank that they could easily afford to pay them interest at the rate of 4 per cent. People who make no use of the check book, are certainly entitled to a 4 per cent. rate in a country where invested capital is as fruitful as it is in Canada.

Prof. Johnson finds that banking competition is as active in Canada as it is in the United States, and that there are only two things that banks and shower baths, or advance, the discount rate or advance the rate paid on depositors' balances. In fact, he finds that from the national point of view, 29 chartered banks in Canada, with their 3,200 branches, may be almost regarded as one institution, a fact which he mentions with commendation rather than with criticism, as it makes for financial ease.

He demonstrates this by the following facts:

1. Over 90 per cent. of the banking business in Canada is done by six banks. One of these has assets exceeding 20 per cent. of the total. Another has resources equal to 13 per cent. of the total.
2. One bank is the depository of most of the government funds.
3. The Bankers' Association, an organization created by law, is a medium through which Canadian banks find authoritative expression.
4. Bank managers are trained experts, and no manager will venture far upon a policy which is regarded by his colleagues as dangerous.
5. All the banks are equally interested in the unbroken prosperity of the country. The managers of the six largest banks, each having capital of over a hundred branches, are particularly watchful. They realize that speculative excesses in any part of the country will bring loss to them and must be discouraged.

6. On account of this mutual interdependence of the banks, no bank in Canada can hope to achieve success by striking out upon an absolutely independent policy, if such conduct is likely to meet with the disapproval of the banking fraternity.
7. In their insistence on the rule that a man shall borrow from only one bank, the banks have done more than appears on the surface to make their system a unit. If a merchant is refused credit at one bank he finds it practically impossible to get help from any other. This rule certainly makes the 29 banks of the Dominion, from the borrowers' point of view, a single institution.

8. There is practical unanimity of opinion among bankers with regard to business conditions and the outlook. This unanimity among bankers with regard to business conditions makes the individual banker a much more important person in Canada than he is in the United States.

Criticizing the branch bank system, Prof. Johnson says that this has checked the development of business and industry in the maritime provinces. If Canada during the last 30 years had depended, like the United States, upon independent local banks, there would have been a plethora of capital in the East, and Montreal, Quebec and Halifax, like Boston, New York and Philadelphia, would, years ago, have had 4 and 5 per cent. money, while Winnipeg and other western cities, less populous than now, would still be paying one per cent. a month.

That there has been no panic in Canada since the banking system was perfected, Prof. Johnson says must be credited to the strength of that system. The strength in times of stress he attributes to two main points, the elasticity of the note circulation and the unity of the system already referred to.

**No Weak Spot.**

After giving generous praise, he asks if there is a weak spot? Would Canada's banking system stand a test strain? Is its gold reserve large enough? Does it not depend too much on London and New York? If England should withdraw her investment capital, or send no more, would not this banking system stand a test strain? In his reply, Prof. Johnson says: In the writer's opinion, Canada's financial position is of the strongest. Comparatively little gold is needed, for the reason that the banks have developed an almost perfect credit system. The people have unquestioning confidence in the credit institutions provided by the banks, and never demand that they be converted into gold. Credit settles all debts between the banks and the public. Gold is used only be-

tween banks and in the foreign exchange, and in the latter field a credit balance to London or New York is more useful than a stock of gold in Montreal or Toronto. If England and the United States some day suddenly stop sending capital to Canada, the country will undoubtedly suffer, but the notion that Canada will at once be called upon to export large quantities of gold in payment for the imported merchandise now paid for with bills of exchange created by English investment, is a crude mercantile.

**Not Sufficient Capital.**

The bankers of Canada may some day regret having a credit balance to London or New York, but they will not do so at the present time they seem rather complacent over their power to issue an "ever green" circulation. This is surprising, for it is in conflict with the principles upon which the Canadian system is based, and, furthermore, would have been entirely unnecessary if the banks within the last ten years had taken the pains to see that the amount of their paid-up capital had increased in the same proportion as their business.

If it is right to tax the notes issued in excess of the paid-up capital, people are asking, why is it not right and proper that the banks should pay a tax on all their circulation?

Sentiment, he says, the desire to see the rest fund growing and the price of bank stocks always advancing, has led to this mistake.

Prof. Johnson has a word for the bank clerk: Being a teacher, the writer must express his regret because of the seeming indifference of Canadian bankers with regard to the education of their employees. When a boy at the age of 15 enters a Canadian bank he leaves all hope of education behind. He will learn a great deal "by doing" and by contact with strong and successful men, but he will have little chance to improve his mind by systematic study or through attendance upon lectures. His hours will be long, and, from the American point of view, his pay will be small. If he has an iron constitution, sound nerves, and an inconquerable stomach, together with a clear head, a

steadily will, and a good character, he will some day be a manager of a branch and perhaps a general manager. But he will have to work out his own salvation without the aid or encouragement of the world's best thought and experience.

## SPECIAL PRIZES FOR PERCHERONS

Canadian Percheron Horse Breeders' Association Offers Prizes for Next Year's Fair.

The Canadian Percheron Horse Breeders' association is extending its liberal aid to the Edmonton Exhibition in the matter of prizes for Percheron horses. Mr. Harrison, manager of the exhibition received yesterday a letter from the secretary-treasurer of the association offering a series of cups and medals to be competed for at the exhibition in 1911. The following is a list of these special prizes and the conditions imposed.

Best Percheron stallion, any age, open class—Silver cup.

Best Percheron mare, any age, open class—Silver cup.

Best Canadian bred Percheron stallion, any age—Silver cup.

Best Canadian bred Percheron mare, any age—Gold medal.

Best Canadian bred Percheron filly, one year old—Gold medal.

"The cups and medals are valued at \$50 each.

"The conditions under which these prizes are offered are, that the animals competing must be registered in the Canadian Percheron Stud book, and there must be entries from at least two different owners in the respective regular breeding classes."

"The cattle clause is no doubt inserted in view of the fact that while there was an excellent display of Percherons in the regular classes this year very few were held in the special classes, being mostly imported instead of Canadian bred stock, which this organization fosters.

The Knights of Columbus will hold a meeting tonight in the Knights of Columbus hall, Jasper West, at 8:30 o'clock.

## CALLS DEMOCRATS "UNHOLY ALLIANCE"

Colonel Teddy Rips Off a Few in Fiery Speech at St. Louis.

St. Louis, Mo., Oct. 12.—Col. Roosevelt denounced the Democratic party in New York as an "Unholy alliance between Wall street and Tammany," in a speech here, and attacked the Democratic party in Missouri by calling it the "Party that represents the special interests and special privileges."

Col. Roosevelt also defended the present position of the Republican party in regard to the tariff. He did not discuss the Payne-Aldrich tariff law. He said the party was united on the doctrine that the tariff shall be such as to equalize the cost of production here and abroad and that it should be regulated by a commission.

**A CASE OF CRUELTY.**

A case of what appeared to be gross cruelty to animals was witnessed yesterday afternoon by several passersby at the corner of Jasper avenue and Tenth street. Two men apparently intoxicated, were driving a horse along Jasper avenue east when the horse balked, and would not go. They, therefore with the assistance of two other men, fastened a chain around the horse's belly and bringing it between the forelegs hitched it to a lorry which drove off at a trot dragging the horse along. At the corner of Ninth p.e., apparently having the re crashed out of it by the chain. The horse was covered with sweat and looked as if it had been driven hard.

The secretary of the Society for the Prevention of Cruelty to Animals has taken the matter up with the police with a view to investigating the case fully.

**"WHITE" AUSTRALIA**

Melbourne, Oct. 12.—The federal parliament unanimously passed bills through all stages making for a permanent White Australia, including sugar bounties.

## STRATHCONA COUNCIL.

Steps were taken at a meeting of the Strathcona city council last night to enquire into the causes of the present typhoid epidemic, for the number of cases in the city justifies the use of that term. A resolution was framed and carried that the health officer should issue a special report on the prevalence of typhoid that steps might be taken to put an end to it.

The erection of a bridge in the immediate future over the ravine on Saskatchewan avenue was brought up for discussion. The necessity for it was strongly urged by Alderman Tipton, and when a resolution was put and voted on, was carried, though with two dissenting voices.

Other matters dealt with were those arising out of the minutes of the previous meeting. The contract for coal was awarded to the Strathcona Coal Co. in spite of Alderman Richards' plea to give it to the Clover Bar Coal Co., whose tender was lowest and the quality of whose coal is supposed to be superior. The opinion, however, expressed by the aldermen was that local industries should have the preference wherever possible. The tender of the Strathcona Coal Co. is \$3 per ton for mine run, the quality of which must be guaranteed by a written statement.

The presentation of the Eary Grey trophy October 12th was referred to a committee composed of Mayor Duggan, Alderman Congdon and Solicitor Jamieson.

Alderman Richards gave notice of a by-law to be voted on for the extension of the sewer to East Strathcona. This matter was laid over till the next regular meeting.

The contract for the flooring of the Mill Creek bridge was given to P. Manning.

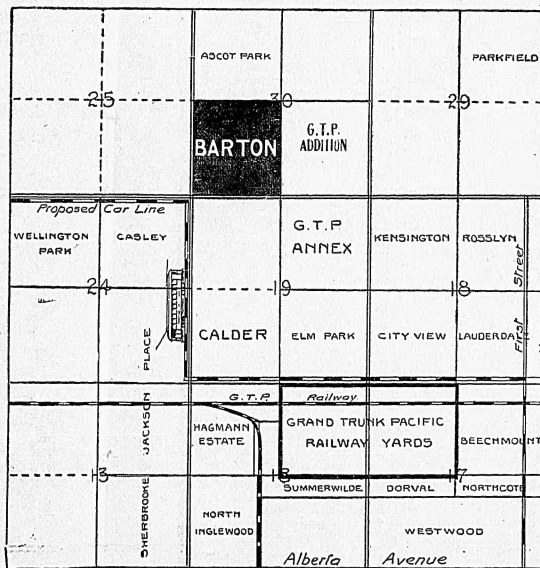

Solicitor Jamieson reported that he had made enquiries of the Calgary solicitor as to the means adopted there of preventing boxing bouts, but had as yet not heard from him. The meeting was adjourned by Mayor Duggan at an early hour.

**GREEK CABINET RESIGNS.**

Athens, Oct. 12.—The Greek cabinet, of which Mr. Dragas was premier, resigned today. The Ministry was formed on January 31 last.

# BARTON

The only acreage near G.T.P. Shops now selling at the price of single lots

# \$250

## ACRE LOTS

Close to West Edmonton, close to work, close to an approved car line and at one sixth of its value.

Don't wait a day, secure an acre or two before the middleman adds his profit. Money is made in land. Acres can easily be made into lots, but lots into acres come high.

Its safer than money in the bank. Prices will soon go up, so cut this sheet out to-day and see the owner.

# ABOUT TOWN.

The annual harvest thanksgiving services will be held in Holy Trinity church, Strathcona, next Sunday.

The regular meeting of the General Contractors' Association of the Builders' Exchange will be held this evening at 8 o'clock, a full attendance of all members of this section is urged.

The Norwood branch of the Temperance, Moral and Reform League will hold a meeting in Eskine Presbyterian Church this evening at 8 o'clock, at which an address will be delivered by Mr. J. T. Barker.

Rev. Mr. Armstrong, missionary at Grande Prairie will speak tonight to the U. M. S. at McDougall Church at 8 o'clock.

The death of Mrs. James Valentine occurred at her home, 114 Morris St., last night. The funeral will take place tomorrow at 10.30 a. m. to the Edmonton cemetery.

The annual meeting of the shareholders of the Edmonton Exhibition association will be held on Monday, October 17th, in the Builders' Exchange rooms, McDougall court.

There will be a sewing meeting of the Ladies' of Circle B of Westminster church at Mrs. McCallum's, Fifth street, on Thursday afternoon at 3 o'clock sharp.

The W. M. F. of McDougall Methodist church will have charge of the prayer meeting service tonight. Mrs. Crux will give an address. A collection will be taken in aid of the Rest fund.

It has been decided that chief switchman Lowry, of the telephone exchange will not go to the factory of the Automatic Telephone company, in Chicago, for a couple of months yet. L. W. Wagner, an expert, in the employ of the company is already here to take Mr. Lowry's place, while he would be away, but both will remain for some time yet. The system is in pretty good working order at present, and only a few re-adjustments have to be made.

In the district court this morning, under the Workmen's Compensation Act, S. Warnock claimed compensation of the Bush Coal Co. to the extent of \$10 per week till recovery. Warnock was injured in the company's coal mine on February 7th of this year, and was in the hospital for some weeks. Returning, he stayed at the carp of the company for some time until the company informed him that they were not responsible for his injuries and would not keep him longer. Warnock claims that though the company were not responsible for his accident he is privileged to receive compensation for his injury received in the company's employ. The company on the other hand claim that they are not liable for damages and that they were not served with the proper notices when the action was begun. No evidence was adduced as to the accident itself but account was only taken of the procedure adopted in taking action. The case was adjourned till this afternoon.

"Alibi," the new novel by Chambers, has been rented by the day at Little's Book Store.

## PERSONAL.

Capt. F. A. Gascoigne, Montreal, is the guest of Mr. D. Thibodeau of this city.

Mr. J. I. Scribner, of Strathcona, has returned from an extended trip to Virginia.

Mrs. E. C. DeLousie has removed to Strathcona from Connaught Creek with her family.

Mr. and Mrs. Fortune of Edmonton, are visiting in Calgary at the home of Mr. Malcolm Melanes.

The wedding is announced to take place on Nov. 15th next of Miss Elsie Thompson to Harold W. Dakin, of this city.

Mrs. A. H. Tait, 42 Arlington Apartments, will receive on Thursday afternoon, October 13th, and afterwards on the second Thursday of each month.

Mr. Daniel and Lady McMillan announce the engagement of their daughter, Mrs. Evans, to Mr. Leigh Manners, McCarthy, son of Mr. Justice McCarthy, of Orangeville, Ontario—Winnipeg Free Press.

Mr. McCarthy was the first manager of the Edmonton branch of the Northern Crown Bank and is now superintendent of branches.

## SUPREME COURT.

In summing up the Shaw-Taylor case yesterday afternoon Judge Beck ruled that Layton was perfectly justified on the evidence produced, in deeming himself insecure and that while the notice of his intention to repossess the stock was somewhat insufficient, it was not sufficient to establish a case. Hence he dismissed the action with costs and hearing that the plaintiffs would appeal suggested that the counterclaim be dropped. Execution is stayed and the question of costs left over till the notes are paid and the cattle restored. Then Judge Beck will fix a lump sum. "We will see how you behave," he added significantly to the lawyers.

## TOO MANY GERMS IN MILK

Officer Objects to 35,000,000 Bacteria Per Teaspoonful.

Washington, D. C., Oct. 12.—After careful examination of some of the milk offered for sale in Washington, Health Officer Woodward announces that it contains 35,000,000 germs to the teaspoonful. As he gives 2,000,000 as the maximum number tolerated in a like quantity by any other large city in the country, he insists that the health department is justified in forbidding the sale of such polluted milk.

## ONE IN THREE PUPILS HUNGRY.

Statistics in Report of Truancy Officers to Kansas City (Mo.) School Head.

Kansas City, Mo., Oct. 12.—One out of every three children who attend school in Kansas City begins its day of work hungry, according to the report of the truancy officers made to the superintendent of public schools. This does not mean that all of the pupils do not receive food, but that proportion do not receive the kind of nourishment which fits them for their studies.
